**File Code:** 1950

**Date:** September 5, 2014

**Subject:** Forest Order No. 11-14-03 (Zone X6a Vehicle Restriction Area)

**To:** File

**From:** Earl W. Ford, Forest Supervisor

After reviewing the project file and discussing with my staff, I have decided to implement a seasonal motor vehicle prohibition for the Zone X6a Vehicle Restriction Area within California Department of Fish and Wildlife deer hunting zone X-6a from September 22 through October 20, 2014. This order will prohibit motor vehicles on or off any National Forest System road or trail within the Zone X6a Vehicle Restriction Area.

This will be the 30<sup>th</sup> consecutive year that this area has been closed to vehicles during the general deer hunting season. The California Department of Fish and Wildlife, Plumas County Fish and Game Commission, and the Plumas National Forest are cooperative partners in this successful program. The objective of this closure is to curb excessive disturbance to deer. A high density of National Forest System roads exists within the Zone X6a Vehicle Restriction Area. Disturbance to the deer includes the street vehicle traffic on the many System roads, which increases during this time frame. Additionally, there is increased traffic from off-highway-vehicles that leave the System roads.

I have concluded that this decision may be categorically excluded from documentation in an Environmental Impact Statement (EIS) or Environmental Assessment (EA) under the National Environmental Policy Act. This action falls within the category identified in 36 CFR 220.6(d)(1) – prohibitions to provide short-term resource protection or to protect public health and safety – and does not require documentation in a decision memo, decision notice, or record of decision. I have determined that there are no extraordinary circumstances associated with this temporary closure. Implementation of the decision may begin immediately.
